Our Specialty Brands

With safety & efficiency in the forefront

aspen surgical®

Aspen Surgical stands for unmatched quality and unparalleled dependability because your OR demands nothing less. Aspen Surgical's comprehensive line of solutions all share two important qualities: precision and reliability. Equip your operating room with our range of industry-trusted products. Then, focus on what matters most—your patients.

We do our best work by helping you do yours. Surgical teams can't afford mistakes, and our solutions help keep you one step ahead. Whether it's markers that eliminate the need for re-marking or products that help promote quicker turnover, we're on a mission to streamline the OR and help teams focus.

With brands like Bard-Parker®, SurgiSafe®, WriteSite®, and more, Aspen Surgical is a leading provider of surgical essentials. We got here by providing solutions that are as effective as they are trusted. With decades of expertise within operating rooms, we're not always recognized by name, but our reputation is always at hand. And though we've been supporting surgical teams for decades, we never stop evolving and looking ahead.

Blades and Scalpels

Physicians and hospitals have relied on the Bard-Parker® brand for more than 100 years. They choose Bard-Parker blades and scalpels for their exceptional precision and quality. Today, Aspen Surgical produces Bard-Parker surgical blades, handles, and disposable scalpels in a broad range of conventional and protected styles.

All Bard-Parker blades and scalpels are made from a proprietary carbon steel composition and a manufacturing process that result an exceptionally strong and precise surgical instrument. To ensure exceptional product quality and prompt delivery, we proudly produce Bard-Parker blades and scalpels in the United States, where our robust manufacturing capacity ensures a consistent, reliable product supply. You have good reason to depend on Bard-Parker.

Bard-Parker® Conventional Blades

Bard-Parker Conventional Blades are both thoroughbreds and workhorses. These are the blades that physicians rely on day in and day out, in the O.R., ER, labor and delivery, and throughout the medical facility.

- High-quality blades for exceptional control during incisions
- Bard-Parker's exclusive carbon steel Rib-Back® design available for many blades
- Reusable handles available for every blade size
- Foil pouch packaging with a unique dual inner liner for maximum protection of both the blade and the end user
- Not made with natural rubber latex and intended for single-use

Bard-Parker® Protected Blade System

Sharps injuries can occur at any time: prior to, during, or after a procedure. The Bard-Parker protected blade system helps protect your staff from all of them. We designed the system with a similar weight and feel to our conventional products. It even uses the same stainless steel blades, but adds a locking retractable shield that features simple, one-handed activation.

- Similar weight and feel to our conventional scalpel
- Same stainless steel blade as our conventional scalpel
- Locking retractable shield with easy one-handed activation
- Long handle available with select blade sizes
- Not made with natural rubber latex and intended for single-use

Colby™ Fluid Management Products

Our Colby™ line provides a convenient and effective means of managing infectious waste fluid generated during wet procedures. Our products help to reduce the likelihood of injuries associated with wet floors. They aid in protecting healthcare professionals and housekeeping personnel from contact with contaminated substances and help support your efforts to comply with OSHA's Bloodborne Pathogens Standard. Our products do not change the contents of medical waste, but rather help your team to more effectively contain it.

SurgiSafe® Absorbent Floor Mats

- Help keep floors clean, dry, and slip-free, even during fluid intense procedures
- Absorb irrigants, blood, and bodily fluids through unique wicking, absorbency, and fluid retention properties, while conforming to uneven floor surfaces without bunching
- Help protect your staff from slips, trips, and falls in the operating room
- Help reduce staff exposure to infectious waste
- Help eliminate re-using blankets and towels on patients
- Help reduce O.R. turnaround time
- Contain fluid in one area for easy clean up
- Non-Sterile, intended for single-use, and not made with natural rubber latex

SurgiSafe® Specialty Absorbent Floor Mats

- Designed to include unique features beyond those offered by the Standard Absorbent Floor Mat Line
- Low profile
- Offered in large sizes
- Blue mat features fluid barrier backing to help keep floor beneath dry and clean
- Yellow mat absorbs fluid from the top and bottom

S-Vac® Fluted Channel Drains

- Designed to provide advanced drainage and increased patient comfort
- Fluted channel design helps minimize the chance of tissue in-growth creating the blockages that can cause premature drain removal when using standard drains
- 10mm Flat Fluted Drain provides 6-channels for optimal drainage, compared to the industry standard 4-channel design
- Soft, flat drain hubs offers enhanced patient comfort
- Exceptional flow rates provides improved drainage, helping reduce the chance of seroma formation
- Available with or without sharp stainless steel trocars
- Radiopaque
- Sterile, intended for single-use, and not made with natural rubber latex

S-Vac® 100ml PVC Bulb Evacuator

- Advanced vacuum level to help prevent occlusion and premature "clotting off"
- Large lumen "maxi-flow" anti-reflux valve on the in-flow port
- Provides exceptional in-flow, even when clots are present
- Unique cap/plug emptying port plug closure with external skirt
- Helps prevent touch contamination of the port
- Emptying port can be connected to auxiliary suction
- Appropriate option when higher level suction is needed
- Sterile, intended for single-use, and not made with natural rubber latex
