

O.R. Camera Cover

Intended Use

Intended to provide a sterile interface between the non-sterile operating room camera and sterile nurse or surgeon.

Key Features

- Clear lens helps allow for complete visualization of surgical field
- No distortion of image through lens
- Ultra-durable clear lens to help avoid breakage during surgery
- Saves time and money associated with having to sterilize reusable camera covers
- Helps enable quicker O.R. turnaround times
- Adaptors currently available for many common O.R. cameras
- Please contact your local Aspen Surgical representative for further adaptor information
- Sterile, intended for single use, and not made with natural rubber latex
